PIG CONCENTRATES

NOVATEK PIG CONCENTRATES are mixed with hammer milled maize through a 4 mm sieve. This will ensure cost effective on farm pig feed production. The pig feed mash will ensure the highest profit is made with farm produced maize with the added bonus of optimal pig performance.

Maize meal can be replaced with roller meal. If maize meal is replaced with no. 3 meal or maize bran, the pigs will grow at a slower rate and will take longer to reach a marketable weight. This will however reduce the cost of feeding over a slightly longer grow out period.

"Feeding for Prosperity"

The new born piglet should be fed the commercially available **novatek Pig Creep Pellets** (25 kg bags) from 3 weeks of age until 6 weeks.

Mixing Instructions		novatek Pig Concentrate*	Maize Meal
PIG WEANER Mash (250 Kg / 5 Bags)		40% (2 X 50 kg)	60% (3 X 50 kg)
PIG GROWER Mash (250Kg / 5 Bags)		40% (2 X 50 kg)	60% (3 X 50 kg)
PIG FINISHER Mash (250 Kg / 5 Bags)		50% (1 x 50 kg)	50% (1 x 50 kg)
BOAR & SOW Mash (250 Kg / 5 Bags)		40% (2 X 50 kg)	60% (3 X 50 kg)
LACTATING SOW Mash (250 Kg / 5 Bags)		40% (2 X 50 kg)	60% (3 X 50 kg)

* Use Pig **Weaner** Concentrate to mix Pig **Weaner** Mash etc.

Cost comparison example

Product Description	Bag Weight	Mixing Instruction	Example Price X Mixing Factor	Price / 50Kg Bag
novatek Pig Concentrate*	50 Kg	40%	K220 x 0.4	K88
Maize Meal	50 Kg	60%	K100 x 0.6	K60
Pig Feed Mash	50 Kg	100%		K148

In the above example the farm mixed pig feed mash costs K148 / 50 kg.

This price can be compared to commercially available feed for additional profitability.
